

Installation of gLAB in MacOS

- 1) Go to <https://gage.upc.edu/en/learning-materials/software-tools/glab-tool-suite-links/glab-tutorials/gnss-tutorials>
- 2) Click on “Software”

- **Associated Software and Data Files (MacOS)**

- [How to install the Software \[MacOS\]](#)
- [Software \[MacOS\]](#)
- [Data Files \[MacOS\]](#)

- 3) Once downloaded, start the installation of the file. Remember to grant the installing permission to the program in the “Security and Privacy” Settings section. (see <https://www.youtube.com/watch?v=l7jwk11Xnqq> for reference on how to do it)
